

# F-8LC

## EXIT BUTTON WITH LED

### Product Features

- F-8LC Metal Exit Button is a durable, high-reliability access control accessory designed for indoor and outdoor environments. Built from premium stainless steel and zinc alloy, it offers IP67 water resistance along with strong protection against dust and vandalism, ensuring dependable performance even in demanding or harsh conditions.
- **IP67 Waterproof Rating:** Ensures safe operation in wet or outdoor conditions.
- **Robust Metal Construction:** Anti-vandal and corrosion-resistant.
- **Momentary Switch Design:** Returns to original position after pressing.
- **Illumination:** LED backlighting or glow-in-the-dark for better visibility.

### Technical Specification

Model	F-8LC
Material	1.8mm thick 304 stainless steel panel
Button material	304 stainless steel, silver cobalt
Button Marking	Engraved English and Arabic Text
Current Rating / Voltage	Max 3A / DC12~24V
Output Contact	SPDT (NO/COM/NC/COM)
LED Indicator	Red LED steady on / Green LED when Push
Operating humidity	0-95% (RH)
Operating Temperature	-20°C~55°C (-4~131F)
Mechanical Life	500,000 Tested aging test qualified
Ingress Protection	IP67
Dimensions	86L*86W*35.5H
Weight	0.15KG
