

F-BM

WIRELESS REMOTE CONTROL

Product Features

- High quality power management chip for stable and durable working performance.
- Widely used for anti-theft alarm, wireless door and window contacts, signal output control, industrial control, lifting equipment etc.
- Transmitting distance: 10-30 meters.
- Wireless remote control 1 door switch (one receiver, one remote).

Technical Specifications

Model	F-BM
Function	Single Relay (single wireless device)
Current	8mA
Output Contact	NO/NC/COM
Voltage	12VDC
Transmitting Distance	10-30M
Weight	60g

Structure
